Prospect Road Affair program INSIDE

▶ If you would like to organise a group to attend the football as guests of the Mayor in season 2009, please contact **Kerry Loughhead** on **8269 5355**.

Prospect Petanque members will represent SA in November's States Challenge in Sydney.

What are you doing next Wednesday?

IF YOU ARE EXCITED by the idea of a mid-week get-together with new friends over a barbie and a glass of your favourite beverage, have we got a deal for you!

Prospect Petanque is on a recruitment drive to coincide with our long, warm evenings. Wednesday nights are strictly for fun and you don't have to be a member to join in, just rock up between 6.30 and 10pm and be welcomed by club President **Brett Williams** and a group of very friendly people.

Petanque (or Boules) is French bowls that can be played on any surface and is played by many thousands of Australians at the beach, while camping or in the backyard.

This is no ordinary game – it is easy to learn and easy to play and a great way to relax, but for those with a competitive streak it offers endless options to improve and play in tournaments at club, state, national and international levels.

Prospect Petanque is one of a number of official clubs in Adelaide and it is set within the beautiful Narnu Wirra park between Mawson and Buchanan streets in Nailsworth. It boasts a well-appointed licensed clubroom and 22 *pistes* (grounds) with half under lights. This is a game that can be played by all. Age, gender or disability are not barriers; all you need is a desire to meet people and have a good time. How good is that!

▶ If you prefer to talk to someone before coming to the club, Brett can be reached on **0404 227 926** or **8269 6836**.

Australian Birds in Prospect 13

Little Raven

Crows and ravens are members of the *corvid* family. In folklore they are often seen as birds of evil omen, but they are very smart and are studied widely by researchers interested in animal intelligence. A New Caledonian crow called Betty became world famous when she was filmed making a tool out of a piece of wire to get at some food.

There is an article with a video link at <http://pages.cthome.net/rwinkler/crowintel.htm>.

You can find out more about making your garden a friendly place for birds and other wildlife at www.backyards4wildlife.com.au.
